FSD ASSIGNMENT - 1

Kindly upload Assignment - 1 using the link provided below:

🔗 **https://forms.gle/667S4SLjHtFuPhw89**

Exercise 1: Basic HTML5 Structure
Objective: Understand the basic structure of an HTML5 document.

Task:
 Create a webpage with the following:

- A title "My First HTML Page"

- A heading (`<h1>`) with your name

- A paragraph (`<p>`) describing your hobbies

- A horizontal line and a line break

Exercise 2: Use of Lists and Links
Objective: Practice using different list types and hyperlinks.

Task:
 Create a page that includes:

- An unordered list of your favorite fruits

- An ordered list of top 3 movies

- A hyperlink to your favorite website (open in a new tab)

Exercise 3: Adding Images and Tables
Objective: Insert images and create tables using HTML.

Task:

- Insert an image using the `<img>` tag (use a placeholder URL or local image)

- Create a table with 3 rows and 3 columns showing:
  - Student Name, Age, and Favorite Subject

Exercise 4: Introduction to CSS (Internal CSS)

Objective: Apply basic styles to HTML using `<style>` tag.

Task:

- Create a heading styled with:

  - Background color: lightblue

  - Text color: darkblue

  - Font size: 30px

- Style a paragraph with:

  - Font family: Arial

  - Text alignment: justify

Exercise 5: CSS Classes and IDs

Objective: Learn to differentiate and apply CSS classes and IDs.

Task:

- Create two `<div>` blocks:

  - One with ID `intro` styled with a border and padding

  - One with class `highlight` styled with a yellow background

- Add text to both and observe the styles
